REMARKS

25X1 the Dannenwalde-
25X1 Seilershof ammunition depot was taken over by the German Volkspolizei
25X1 on 30 May 1952. A number of Volkspolizei personnel had already moved into the
25X1 depot. However, Soviet soldiers were still there. Trucks were seen daily hauling
25X1 ammunition from the depot to the Templin summer camp via Bredereiche. *

25X1
25X1 * Comment. On the basis of information on increased supply traffic and repeated unloading of VP units in the Gransee area in May 1952, it is assumed that a VP training grounds is being established in this area. S
I Therefore, it appears possible that the Dannenwalde ammunition depot about 15 km north of Gransee is being vacated and will be used by the German Volkspolizei. In connection with this measure, it is possible that Soviet ammunition was shipped to the Templin troop training grounds.
